INTERLEXIS PRESENTS PAPER ON “TECHNOLOGY AND THE TRANSLATOR” AT THIRD ASIA TRANSLATORS’ FORUM

Tan Dan-Feng, Manager of International Operations Presents Paper on “Technology and the Translator” at the FIT Third Asia Translators’ Forum in Hong Kong

Singapore – 5 January 2002 – A team from the Singapore and Beijing offices of Interlexis Pte Ltd, a leading Asian language company, attended the FIT (Fédération Internationale des Traducteurs) Third Asian Translators’ Forum in Hong Kong as delegates from 6-8 December.

The Asian Translators’ Forum is Asia’s largest professional event for the translation profession and is held once every three years. The theme of the Third Asian Translators’ Forum was “Translation in the New Millenium: Inter-Continental Perspectives on Translation”.

At the conference, Tan Dan-Feng, Manager of International Operations presented a paper – “Technology and the Translator” which covered the impact that modern technology has had on the translation industry and how translation professionals can optimally utilise technology and adapt themselves to the new technology era. The presentation was held at Loke Yew Hall, The University of Hong Kong, and was followed by a lively question and answer session.

This was the second time that a representative from Interlexis has made a presentation at this event. Frank Tan, Chairman of Interlexis addressed the plenary session at the inaugural Asian Translators’ Forum in Beijing in 1995.
